PROJECT CATALOGUE

Glass that belongs to a place.

Bengistudio designs and makes bespoke glass and stainless steel objects for hotels, restaurants and private residences.

An architectural perspective, an individual piece.

Each project responds to the light, scale and story of its space. There is no mass production; every piece is born for the place where it belongs.

Selected projects · example layout

Hotel

Bespoke objects for reception and shared spaces.

Project name, city, year and actual photography to be supplied.

Restaurant
